

Retevis Ailunce HA1G GMRS V1.1

The HA1G release version 1.1 is a result of the lessons learned and user requests from the first release Rev 1.0, Spring 2025.

Updates include:

- **Addition of Zone 8 channel and new backup Zone Channel (AI-SIM).**
- **Improved “Channel Group” select operation to reduce chance of accidental press during radio operation.**
- **Addition of a new Zone channel group option to reduce background chatter.**
- **Addition of a new “Family Radio Service” (FRS) channel group.**

Radio Program Groups:

Group 1 (Z1): Zones 1-8, AISIM

Group 2 (Z2): Zones 1-8 DPL

Group 3 (Z3): Channel AIEOC, AI-19, AI-15

Group 4 (Z4): FRS 8-14

Group All: All channels available on the radio

Details:

Group 1 and 3 backward compatible with original program

Group 1 adds AISIM, new backup channel

Group 2 creates Zone channels with added “Digital Private Line” coding to reduce background chatter heard from other non-aiprep stations

Group 4 adds FRS (Family Radio Service) for Volunteer Island Patrol and NC to Neighbor communication. Low power , short range.

Group Select buttons now require a long press to increment (+) or decrement (-) to next channel group
